As vice president of education for Microsoft Corp.'s Worldwide Public Sector organization, Anthony Salcito works with education institutions and partners globally to embrace technology to optimize learning environments and student achievement. In this role, Salcito oversees the worldwide execution of Microsoft's vision for education and its partnership and technology outreach efforts via the Worldwide Partners in Learning, Partners for Technology Access, and Public and Private Alliances programs.

Previously, as general manager of education in the United States, Salcito had responsibility for supporting K-12 and higher education institutions across the U.S. and leading Microsoft’s efforts to support and increase the role technology plays to enhance learning. He developed education partnerships and innovative programs to better support education customers nationally.

Salcito helped launch the U.S. Partners in Learning program in 2003, which was recognized in 2009 with the Public-Private Partnership Award from the U.S. National Governors Association. He was the catalyst for Microsoft’s involvement in the creation of the School of the Future — Microsoft’s participation with School District of Philadelphia to build an innovative high school in the city of Philadelphia, which has served as a blueprint for Microsoft’s worldwide Innovative Schools program.

Salcito has created several programs that have been leveraged broadly to support the company’s giving efforts and Microsoft’s Connected Learning Community initiative. He created the Microsoft Technology Friends Network, which links IT professionals and developers to schools and nonprofits to donate their technical expertise to aid with technology support.

Salcito joined Microsoft in 1992, helping to architect Microsoft’s marketing outreach plan in the early 1990s. During his initial years with Microsoft, Salcito had the opportunity to influence marketing and one-to-many programs including the product launches for Windows NT and Windows 95.

Salcito is involved with a variety of outreach projects; he has served on the board of directors for Stevens Institute of Technology WebCampus, and currently serves on the board of the National Foundation for Teaching Entrepreneurship, the National Community Education Association and Western Governors University.

Salcito is the author of an education focused called Education Insights -- http://blogs.msdn.com/b/microsoftuseducation/.
